

DO YOU KNOW WHO HAS THE
KEY? WHO TOOK THEM? ARE
THEM LOST? WHICH IS THE
RIGHT ONE? 1 HOUR WITH
THE PRODUCTION OUT OF LINE?
HOW MUCH MONEY LOST?
WHO TOOK THEM? 2 HOURS
WAITING? WHERE ARE THE KEYS?
WHERE IS THE BEST KEY?

STOP HAVING PROBLEMS WITH YOUR KEYS! WE OFFER YOU THE BEST SYSTEM TO PROTECT AND ORGANIZE YOUR KEYS

STOP LOOSING TIME!!

With the **Key Vigilant®** key management system, you will always know who is in possession of the keys.

Key Vigilant® key control systems are designed to provide your company with the best solutions so that both your company and employees stop losing time and money.

KEYVIGILANT®
KEY CONTROL SYSTEM
KEY CONTROL SYSTEM

The Most Intelligent Mechanical Key Control System in the Market.

↓ The keys are attached to the system by an anti-tamper security key holder.

↓ The colored access peg is inserted to remove the desired key from the system.

↓ By turning the access peg the system is activated and the desired key is released.

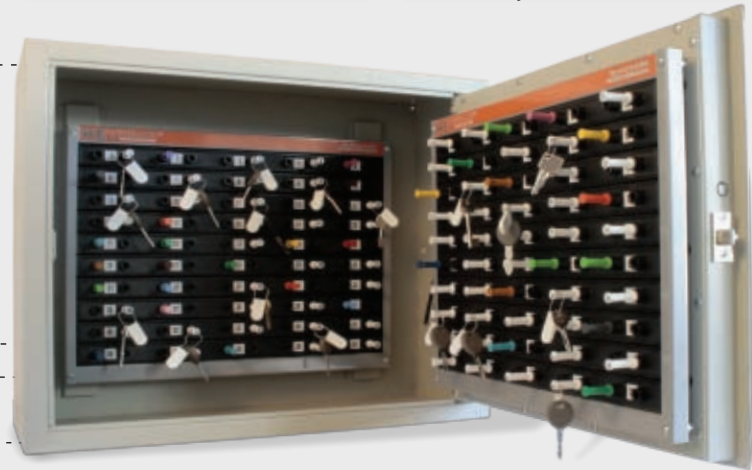

↓ The colored access peg retained on the board will identify the user who has not returned the key.

N°	COLOR	DEPARTMENT
09	RED	Sales
10	GREEN	Security
11	YELLOW	New sales
12	ORANGE	Garage
13	BROWN	Entry
14	BLUE	Office

➤ **Key Vigilant®** systems are available in boards suitable for storing from 10, 15, 25, 50, 100 up to 150 keys on a single board. They may be kept in reinforced cabinets with a storage capacity ranging from 15 to 300 keys.

➤ **Available to buy or lease**

Key Vigilant® systems are highly recommended for:

Car dealers and garages / Fleet of vehicles / Transportation companies / Police / Firemen / Security Forces / Private Security Forces
Hospitals / Airports / Exhibition and Convention Centers / Real Property Agencies / Factories / Universities and Schools
Thematic Parks / Casinos / Sporting Facilities / Business / Shopping Centers / Corporative Office Buildings / And many more...

Key Vigilant® ,key control system accessories:

We design special structures for custody of keys

CABINETS

Steel cabinets for **Key Vigilant®** systems and key holding boards.
All our cabinets are provided with: automatic lock with hidden hinges, mechanic combination locking and night lock with 3 bolts. Steel 2 mm.

ACCESS PEGS

Key Vigilant® access pegs will enable you to always identify the user who has removed the key from the system.
Access pegs are available in different colors and may be personalized by writing letters or numbers.

ANTI-TAMPER SEALS

With the **Key Vigilant®** anti-tamper seals, the system users are prevented from changing or removing the keys from the system. How does this work? The key and the system's white numbered peg are attached to the anti-tamper seal. After this, the only manner to remove or change the key is by cutting the anti-tamper seal.

KEY HOLDER BOARDS

Metallic boards suitable for those keys not requiring control. They are suitable to be placed inside the steel cabinets or to be mounted directly on the wall.

TAGS

Key Vigilant® tags were especially designed to be used by car dealers and garages, since by just glancing at the vehicle, the user may identify the key in the system.
